## Connection component

Item number: 6221467

The connection component is the connection between the threaded rod lock and the suspension system for the routing types with cable ladders that maintain electrical function to DIN 4102 Part 12.

It is attached to the under-belt of the ladder rail at a distance of max. 100 mm from the bracket. When the threaded rod has been mounted, the connection component is secured against slipping.

St

Steel

FT

Hot-dip galvanised
